AMNA ISHAQ

FULL STACK MERN DEVELOPER

Haroonabad, Pakistan | 0313-6874189 | amna16528@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

BS Software Engineering graduate and Full Stack MERN Developer with hands-on experience architecting responsive web applications using React.js, Node.js, Express.js, and MongoDB. Proven track record designing optimized RESTful APIs, implementing robust CRUD operations, and deploying scalable full-stack applications on cloud environments. Seeking an entry-level Software Engineer / MERN Developer role within an agile development team.

SKILLS

Languages & Core: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React.js, Bootstrap, Tailwind CSS, Vite, React Router

Backend & Database: Node.js, Express.js, REST API Design, MongoDB

Tools & Practices: Git, GitHub, Postman, Context API, Chrome DevTools, VS Code, UI/UX Basics

TECHNICAL EXPERIENCE

Frontend Web Development Intern — CodeAlpha (Remote) May 2026 – Jun 2026

- Developed and deployed a suite of responsive web systems using modern JavaScript (ES6+), optimizing layout consistency across distinct breakpoints via CSS Grid and Flexbox.
- Engineered complex dynamic DOM manipulation algorithms to handle arithmetic user inputs for an interactive utility application.
- Implemented asynchronous filtering logic and event handlers to deliver fluid, seamless UI transitions in production web assets.

PROJECTS

MERN Contact Book — Full-Stack MERN Application | Live Demo | Code

- Architected a scalable full-stack contact management ecosystem utilizing the MERN stack architecture (React, Node, Express, MongoDB).
- Designed and secured a custom RESTful API to manage persistent database communications for seamless data creation, retrieval, and updates.
- Orchestrated cloud deployment via Railway pipelines, establishing stable CI/CD workflows for the live environment.

LUMÉ — Fashion E-Commerce Store (React.js) | Live Demo | Code

- Engineered a high-performance fashion retail storefront utilizing React.js, Vite, and Tailwind CSS with a luxury minimalist aesthetic.
- Managed global application state via the React Context API to support a persistent shopping cart, synchronized user wishlists, and multi-tier category filtering.

SkyCast — Weather Forecasting App (React.js) | Live Demo | Code

- Developed a real-time weather forecasting application integrating live asynchronous meteorological data from the Open-Meteo API.
- Engineered a component-based UI with full mobile responsiveness, featuring geolocation-based search logic and dynamic hand-drawn SVG layouts.

EDUCATION

BS Software Engineering — The Islamia University of Bahawalpur 2022 – 2026
Intermediate (ICS) — Govt. Degree College for Women, Haroon Abad 2018 – 2020
Matriculation (Science) — Govt. G. City H/S, Haroon Abad 2016 – 2018

LANGUAGES

Urdu (Native) • English (Intermediate)
